Anakapalle, Andhra Pradesh, India

PROFESSIONAL SUMMARY

Final-year B.Tech (CSE – AI & ML) student with hands-on experience in Python, SQL, and web technologies. Built AI-powered chatbots, process-automation tools, and full-stack applications through internships and self-driven projects. Seeking a software development or AI/ML role where I can apply data-driven problem solving and continue growing as an engineer.

EDUCATION

B.Tech – CSE (Artificial Intelligence & Machine Learning) 2023 – 2027
Dadi Institute of Engineering & Technology, Anakapalle | CGPA: 8.65 / 10

Intermediate (Class XII) 2021 – 2023
Dr. Himasekhar Jr College, Anakapalle | 92.2%

SSC (Class X) 2021
Prasanthinikethan M.V.V.S Murthy English Medium High School | 99%

TECHNICAL SKILLS

Languages: Python, Java, C, SQL

Web Technologies: HTML, CSS, Streamlit

AI / ML: Machine Learning, Computer Vision

Databases: SQLite, SQL

Tools & Platforms: Git, GitHub, Linux, AWS Cloud, Celonis, Android Studio

PROJECTS

College Enquiry AI Chatbot May 2026

- Built an AI-powered chatbot using Python, NLP, and Machine Learning to automate student query resolution for college enquiries.
- Deployed via Streamlit for a web-accessible interface; achieved accurate intent classification across 15+ query categories.
- Reduced manual enquiry handling effort by providing instant, accurate responses to prospective students.

Robotic Arm Controlled by an Android App Jul – Sep 2025

- Developed a front-end control interface using HTML & CSS, enabling users to remotely operate a robotic arm to pick and place objects.
- Integrated app controls with hardware signals to demonstrate IoT and embedded systems concepts.

Student Database Management System Dec 2025

- Built a Python + SQLite application to store, manage, and retrieve student records with CRUD operations.
- Implemented search and filter functionality to efficiently query records from a structured database.

INTERNSHIPS

Google Android Developer Virtual Internship Jan – Mar 2026

- Explored Android app development fundamentals, built sample apps using Android Studio and Java.

Celonis Process Mining Virtual Internship

Oct – Dec 2025

- Analysed business process data using Celonis to identify bottlenecks and generate process insights; earned Celonis Process Mining certification.

Python Full Stack Developer Virtual Internship

Apr – Jun 2025

- Developed full-stack web features using Python and front-end technologies; practised REST API integration and data management workflows.

AWS Cloud Virtual Internship

Oct – Dec 2024

- Gained hands-on experience with core AWS services (EC2, S3); completed cloud architecture and deployment exercises.

CERTIFICATIONS

- Microsoft Applied Skills – Generate Reports with AI Research Agents (May 2026)
- Quantum Fundamentals (Feb 2026)
- Celonis – Process Mining (Nov 2025)
- NPTEL – Joy of Computing Using Python | Elite + Silver (80%) (Oct 2025)
- Data Visualization: Empowering Business with Effective Insights (Sep 2025)

ACHIEVEMENTS & ACTIVITIES

- Earned Elite + Silver rank in NPTEL 'Joy of Computing Using Python' course (Oct 2025).
- Bronze medallist, Science Olympiad Foundation (SOF) Competition (Sep 2019).
- Participated in Google AI & ML and AWS Cloud Computing workshops.
- Represented college in project exhibitions and inter-departmental group discussions.
